Sicap and T-Mobile Croatia have announced a deal that will extend Sicap Device Management Center to serve T-Mobile Macedonia customers from the Croatian platform.

The announcement highlights the flexibility of the Sicap DMC and the satisfaction of T-Mobile with the performance of the software, implemented early 2006 by T-Mobile Croatia to deliver device settings to customers.

T-Mobile Croatia has informed that it will upgrade to Sicap DMC version 3, containing the 'Device Knowledge Center' database developed and maintained by Sicap, in the near future.
